LINCOLN LOGS

AND

ALLIED TOYS

Miniature Building Material made of hardwood, seasoned and stained a weathered brown. Simple designs illustrate innumerable different items of log construction. Easily put together.

You all know the stories people tell about the pioneers who settled our country. How they cleared land, built log cabins, and fought the Indians. They also built a big fort called Fort Dearborn and made it entirely out of logs. Today we don't have to do the things the pioneers did, but you boys and girls can build the same sort of little houses, barns, forts and villages that the pioneers did if you use LINCOLN LOGS. These Logs come in several sets along with roofs and chimneys, fences, etc. There are also little figures of Indians, cowboys, soldiers, and trappers, and a set of animals for a farmyard.
